## Profile

Hard working, talented Software Developer looking for an opportunity to work with a great team, learn new technologies and understand how a big company like your functions and carry out day to day tasks

## Technical Skills

### Programming

- C#
- .NET / ASP.NET
- Java / JSP
- C++
- MS Access
- HTML
- CSS
- JavaScript
- PHP
- MySQL

### Frameworks / APIs

- jQuery
- Unity3D
- SFML
- Java Spring
- Google Maps API
- Node
- Express
- Electron

### Applications / OS

- MS Office
- MS Azure
- Windows 7/8/10
- Multiple IDEs
- GitHub
- Linux

## Other Skills

- Quick in learning new programming languages and technologies
- Decent knowledge of computer hardware and can troubleshoot some hardware related problems
- Work well in a busy, stressful environment
- Able to handle multiple tasks within tight time frames
- A team player who especially enjoys the technical part of teamwork

## Experience

**ABC Convenience, Brampton, ON.**

Oct 2015 – Dec 2016

### Cashier

- Work in fast paced environment where customers come in all the time
- Juggle between multiple tasks such as managing customers, restocking shelves and cleaning
- Remember regular customers preferences so I can serve them faster

**MJD Tech, Mississauga, ON.**

Sep 2013 - Dec 2013

### Web Developer Intern / CO-OP

- Create and maintain websites using Windows Azure
- Manage time and effort between multiple clients and their projects
- Communicate with clients and understand their need for the website
- Teach clients how to add new content to their website
- Design and manage multiple websites by myself with little input from the boss and the clients

**Popeyes, Brampton, ON.**

Jan 2013 – Sep 2013

### Chef

- Manage time and effort between multiple orders during busy hours
- Train new employees in learning the techniques and processes of the job
- Ensure that customer orders are filled accurately and in a timely manner

## Education

**Sheridan College, Brampton, ON.**

Jan 2012 - Dec 2014

### Software Development & Network Engineering Co-op Program

- Learned programming in multiple languages including Java, PHP, C# etc.
- Used different frameworks / technologies to make games and advanced server and client side applications
- Made a well-regarded, social app (Android) for my Capstone project that shows the user messages posted by the community depending upon their location. [Link to backend API](#)

## Other Interests

- Learn about new and/or interesting technologies like Machine Learning, Electron, Chrome Extension development etc.
- Keep up-to-date on latest Computer Hardware including GPUs, CPUs etc.
- Working on my personal projects like Application-Logger, IRC-Bot etc. to learn aforementioned technologies or to make my life easier
